

SEAI -Lir-NOTF ORE Industry Access Programme

Do you have an offshore renewable energy concept ready for scaled physical testing?

Applications are now invited for the laboratory testing of ORE technologies or marine enterprises to capture any innovation intended for marine use that **reduces energy use** and energy production. This includes **Wave, Wind, Tidal and Floating Solar technology**.

Successful applicants must be able to provide a physical model for testing and will be given free access to one of the following facilities in Lir-NOTF;

- Deep Ocean Basin
- Ocean Basin
- Wave and Current Flume
- Wave Watch Flume
- Electrical laboratory/Energy Laboratory

Further information and application forms available at
www.lir-notf.com

CALL REMAINS OPEN UNTIL COB 30th June 2023

All applicants must directly contact the Lir NOTF Technical Coordinator, Ian Power (ianpower@ucc.ie), in advance of submitting an application.
