

SEAI -Lir-NOTF ORE Industry Access Programme

Do you have an offshore renewable energy concept ready for scaled **physical testing** or **numerical modelling**?

Applications are now invited for laboratory testing or numerical modelling of offshore renewable energy (ORE) technologies. This includes **Wave, Wind, Tidal** and **Floating Solar** technologies.

Successful applicants must be able to provide a physical model for testing or information required for numerical modelling.

Successful applicants will be given free access to one of the following facilities in Lir-NOTF.

- Deep Ocean Basin
- Ocean Basin
- Wave and Current Flume
- Wave Watch Flume
- Electrical laboratory/Energy Laboratory
- Numerical Modelling

Further information and application forms available at www.lir-notf.com ([Funding opportunities – Lir National Ocean Test Facility](#))

CALL REMAINS OPEN UNTIL 18:00 on 9th May 2025

All applicants must directly contact the Lir-NOTF facility coordinator, Dr. Milad Zabihi (m.zabihi@ucc.ie), in advance of submitting an application.
